Additional access needs

Bursary request

If you require additional support to enable your participation, please tell us what would be required here. Eg, you may need an access assistant to support with travel, or you may have a dependent who would need to travel with you to the residency or other arrangements made.

Prompts for letter of motivation

How does your practice to date prepare you to offer skills and knowledge to others and be open to learning? What parts of your practice do you wish to develop? What new influences are you hoping to connect with? What particular questions would you bring to the residencies?
